# AURA

## Lab-Grown Diamond CVD/HPHT scanner

AURA DID NOT IDENTIFY CZ,  
GLASS, SIMULANT AND COLOR  
DIAMONDS

### Professional Approach

- Auto-generated test result certification
- Easy to use and User Friendly
- The space saver for the gemologist
- No external PC/Laptop required
- Automatic Stone Counter & Measurement
- screen share with smart devices

### Why AURA

- Most Advanced Hi-Tech Scanner for Precious stones like Natural Diamond and Synthetic CVD/HPHT Diamond
- Only scanner can separate CVD and HPHT
- Different modes of testing
- Bulk testing made easier
- Competent to test stones as small as 0.002 ct.
- Color Range: Colorless to near-colorless (D – K)
- Designed to detect Loose & Mounted Diamonds Jewelry
- Powered by 220/110 V

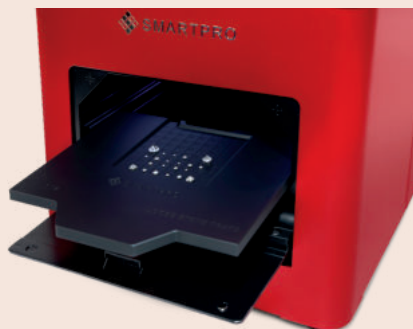

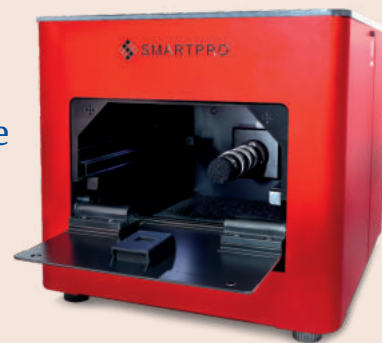

ID: 230401

# AURA

## 360 Degree Special mode

AURA Provides 360 degree testing in one go for rings and bangles full of precious stones. This distinctive feature makes AURA an incredible device for Diamond Lovers.

## Bulk Testing

Bulk Testing of stones made easier with AURA Quick Testing mode. Bulk Testing can also be done having stones in Transparent plastic bag.

## Special Tray Testing

Special Tray Testing can be done using special block tray for stones with high fluorescence and bigger in size in order to avoid overlapping.

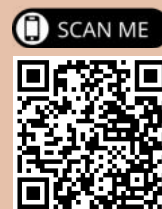

## SmartPro Certification

SmartPro AURA provides certification for each test done and can be shared through email directly from the device.

ID: 230401

# SCREEN-I

## LAB GROWN SYNTHETIC DIAMOND SCREENER

### Professional Approach

- Fastest screener to detect Lab Grown Synthetic Diamond
- Test Result in approx. 3 Seconds
- Connects wirelessly with Smart Pro APP
- Automatic switch off if kept idle to save power

Popular in Class  
CVD/HPHT Accuracy- 100%

### Why SCREEN- I

- Designed to detect Loose & Mounted Diamonds (open setting)
- Built with UV Transparency Technology
- Portable and User-Friendly Device
- Smart Auto Touch Testing Functions
- ASSURE tested
- Testing Range: 0.01ct+
- Color Range: Colorless to near-colorless (D - J)
- Laser Target Pointer
- Powered by Micro USB or 4 x AAA batteries

ID: 55303

# OPTIMUM-I

## TYPE IIA/HPHT/CVD & MOISSANITE SCREENER (INCLUDING F1 MOISSANITE)

### Professional Approach

- Connects wirelessly with Smart Pro APP
- Caters to both left and right-hand users
- ASSURE tested
- Test both loose and mounted stones (Open or closed back)

Loose Diamonds

Mounted Stones

OPTIMUM-I DID NOT IDENTIFY  
CZ, GLASS, OR SIMULANT.

### Why Optimum-I

- Identify between Earth-Mined Diamond, from Lab, created type IIA/CVD/HPHT
- Moissanite (including F1 Moissanite)
- Testing Range: 0.015ct+
- Color Range: Colorless to near-colorless (D – M)
- Powered by Micro USB or 5v power bank

### The Best in Class

# READER-I

## 2 in 1 DIAMOND AND MOISSONITE MULTI TESTER

### Professional Approach

- Clear and Readable LCD display
- Simple and easy to use functions
- Test both loose and mounted stones

Come with readable  
**LCD Display**

### Why Reader- I

- Based on high Thermal Electrical Conductivity Technology
- Differentiates Moissanite and Diamond
- Testing Range: 0.01ct +
- Low battery Indicator
- Connects wirelessly with Smart Pro APP
- Powered by Micro USB or 3 x AAA Batteries

SCAN ME

# GEM EYE-I

## COLOR STONE ESTIMATOR

### Professional Approach

- Clear analog display
- Simple and easy to use functions
- Test both loose and mounted stones

### Why Gem Eye I

- High-efficiency gem tester
- Thermal Conductivity Technology Based
- Easy-to-read large analog panel display
- No waiting time between tests
- Simple and easy to use functions
- Testing Range: 0.01ct +
- LED Light Indicators
- Connects wirelessly with Smart Pro APP
- Powered by Micro USB or 3 x AAA Batteries

# FINDER-I

## DIAMOND AND SIMULANT TESTER

### Professional Approach

- Simple and Easy to use function
- Enhanced accuracy and consistency
- High-efficiency with no waiting time between tests

### Why FINDER-I

- Based on high Thermal Conductivity Tech
- Identifies Diamond from its Simulants
- Retractable Thermoelectric Probe Tip
- Testing Range: 0.01ct +
- Bright LED Light Indicators
- Powered by 2 x AAA Batteries
- Metal alert Buzzer

# LOUPE H10 & H14

**H10**

## Professional Approach

- A perfect accessory for the hobbyist
- Special Coated lens for clear and crisp image
- Fold-out design to protect the optic lens
- Available in 10x and 14x magnification
- It comes with a protective leather case
- with Smart Pro logo lanyard
- with microfiber cleaning cloth

# HASTINGS TRIPLET PROFESSIONAL MAGNIFIER

**H14**

## Why SmartPro Loupe/Magnifier

- Ergonomic design
- Airtight retractable lens with Power 63 lines/mm
- Superior resolution
- Negligible magnification error
- Magnification: 10x and 14x equiconvex lens

# AIR DO S

## Jewelry Hand Engraver for Stone Setting

### Professional Approach

- Ideal for Stone Setting, Engraving etc.
- Digital LED display function for Tool selection and speed control
- Achieve highest Precision with advanced adjustment speed controls
- Affordable and Compact system to unleash inner creativity
- Reliable and ultra-durable for all work environments

### Why Air Do S

- Precise pneumatic hand engraver system
- Free from external compressor
- Space Saver and easy to operate
- Hand and foot switch control
- Ergonomic LED Display
- Powerful Strokes Starts from 240 SPM
- Powered by 220/110 V

SCAN ME

# AIR DO X

## 2 in 1 Hand Jewelry Engraver, Setting & Micromotor

### Professional Approach

- Ideal for Stone Setting, Engraving, Drilling, Polishing, buffing, lapping, etc
- Digital LED display function for Tool selection and speed control
- Overload protection and Automatic emergency stop to avoid any accidents
- Achieve highest Precision with advanced adjustment speed controls
- Affordable and Compact system to unleash inner creativity
- Reliable and ultra-durable for all work environments

SGS

### Why Air Do X

- Precise Pneumatic System
- Free from External Air Compressor
- Micro-Motor for Drilling, Polishing
- Space Saver and easy to operate.
- Powerful Strokes Starts from 240 SPM
- 35000 RPM micro-motor Speed
- Micro-Motor Torque: 2.8N.cm
- Adjustable hand and foot switch control
- Powered by 220/110 V

SCAN ME

# MAX

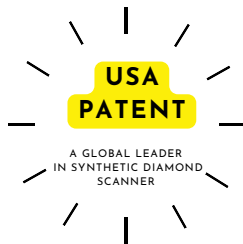

## ALL-IN-ONE

### IDENTIFY LAB GROWN DIAMOND, MOISSANITE & SIMULANT IN ONE SINGLE TEST

#### Professional Approach

- First-ever integrated Thermal & UV Technology
- Easy, Simple and Quick testing
- One single test to identify any type of precious stones
- Enhanced accuracy and consistency
- Can speak 11 International languages
- Test both loose and mounted stones of any sizes and shapes (Open or closed back)

Loose Diamonds

Mounted Stones

#### Why MAX

- Identify Earth-Mined Diamonds from Lab Grown Synthetic type IIa/CVD/HPHT Diamond
- Identify Moissanite (including F1 Moissanite)
- Identify Cubic Zirconia (CZ) / Glass and Estimate Diamond Simulant
- Testing Range: All Fancy cuts & sizes from 0.015 to 10 ct.
- Color Range: For colorless D to M
- 2.2" TFT Display Capacitive touch
- Powered by 1300 mAh inbuilt battery & can be use with power adapter

## The Smartest Diamond Multi-Tester
